

Xinyi CHEN

Zhejiang University, Hangzhou, China | cadrenaline@zju.edu.cn

Research Interests

Human-AI Collaboration, Creativity Support, Conversational Agent, Multi-Agent System, Human-Centered NLP

Education

Zhejiang University - Hangzhou, China

Sep. 2023 - Present

M.S. in Industrial Design Engineering

- **GPA: 4.34/5.00; Advisor:** Prof. Chunlei Chai
- **Coursework:** Intelligent Design, Parametric Modeling Techniques, Design Research

Northeastern University - Shenyang, China

Sep. 2019 - Jun. 2023

B.S. in Digital Media Technology

- **GPA: 4.04/5.00**, Ranking: 2/62; Got a **China National Scholarship** for outstanding students.
- **Coursework:** Rendering Technology, Game Design, Game Planning, 3D Modeling, Virtual Reality Technology

Publications

Research Experience

AI & Art for Knowledge & Creativity (ARK) Lab, HKUST

Jul. 2026 - Present

Research Intern, Advised by: Prof. Xin Tong

- **Project: Cross-device multi-agent collaboration.** Investigating interaction and orchestration patterns for agents on heterogeneous devices to share task context, coordinate complementary capabilities, and maintain continuity across device transitions while preserving user control.

Center for Metaverse and Computational Creativity (MC²), HKUST

May 2026 - Present

Research Assistant, Advised by: Prof. Pan Hui

- **Project: Complementary LLM feedback selection for creative writing.** Built a pipeline that selects a compact set of complementary reviewers under a fixed attention budget using observed feedback behavior rather than persona labels; evaluated alternative mechanisms and refined the method based on negative results. Manuscript in review.

HCI Initiative, Hong Kong University of Science and Technology (HKUST)

Feb. 2025 - Sep. 2025

Research Intern, Advised by: Prof. Xiaojuan Ma

- **Project: Embodied role-play and reflective questioning for co-creative scriptwriting.** Built the full-stack system and LangChain multi-agent workflow with semantic retrieval; led pilot and main studies with 23 total test iterations, data processing, and quantitative analysis. Published at CHI 2026.

IABC Lab, Zhejiang University

Oct. 2023 - Feb.2025

Graduate Researcher, Advised by: Prof. Chunlei Chai

- **Human-AI collaborative video-production framework.** Designed and validated a hybrid workflow mapping

- multimodal inputs to professional outputs; developed cinematic rule sets and prepared fine-tuning data.
- **Computational design prototypes.** Built an automated parametric packaging and rendering pipeline and an interactive genetic-algorithm system with Blender Geometry Nodes and Python.
- Future Design Lab, Zhejiang University

Dec. 2023 - Jun. 2024
- Research Intern, Advised by: Prof. Chunlei Chai
- **Fine-tuning workflows for apparel design.** Curated garment datasets and benchmarked image-generation models for virtual try-on, detail preservation, and style transfer.
- The Center for Education and Research in X-Reality, Northeastern University

May 2022 - Jul. 2022
- Research Assistant, Advised by: Prof. Tianhan Gao
- **Project: Cloud rendering combined with streaming multi-terminal virtual simulation teaching platform.** Led web prototyping and interaction design; implemented the production front end with React and Fluent UI for university deployment.

Work Experience

- Kaon (prev. FlowGPT)

Nov. 2025 - May 2026
- AI Technology Operations Intern
- Developed preference-aware agents for role-play and emotional companionship; optimized prompts, presets, and sampling parameters for diverse user preferences.
 - Designed multidimensional metrics and protocols for frontier-model evaluation, establishing the basis for an adaptive benchmark and evaluation pipeline for open-ended, multi-turn chatbot conversations.
- Hangzhou Zaowu Technology Co., Ltd.

Apr. 2024 - Nov. 2024
- Generative AI Engineer
- Built ComfyUI image-generation workflows; fine-tuned SDXL with DreamBooth and LoRA; explored human-AI collaborative video generation.

Awards

- | | |
|---|------|
| • Merit Award, The 1st Global Digital Intelligence Education Innovation Competition | 2024 |
| • First-Class Merit Scholarship and Outstanding Student, Northeastern University | 2022 |
| • Third Prize, International Mathematical Contest in Modeling (ICM) | 2022 |
| • National Scholarship, Ministry of Education of China | 2021 |

Skills

- **Programming:** Python, PyTorch, TensorFlow, TypeScript, modern web stack
- **ML/AI:** Prompt Engineering, Multi-Agent (LangChain), Fine-tuning (DreamBooth, LoRA)
- **Methods:** Experimental Design, Quantitative Analysis, User Study
- **Software:** Figma, Blender, C4D, Unity 3D, Adobe products
